

## Statistics 6

This Tab provides the following statistics:

1. Statistics 6 provides a panorama view of whole numbers with the nature number order so that you can easily go to the number you are interested in and find its history. You also can easily compare one number to others in terms of their history. The range of past draws are default as 50, usually that is far past enough, if you want to trace back the history further past, you can set start draw value whatever you want, but one thing might be kept in mind, the bigger range, the time you get your statistics displayed would be longer.

Select a start draw, if leave it empty, last 50 draws as default value.

Select a target draw, if leave it empty, next coming draw will be selected as default

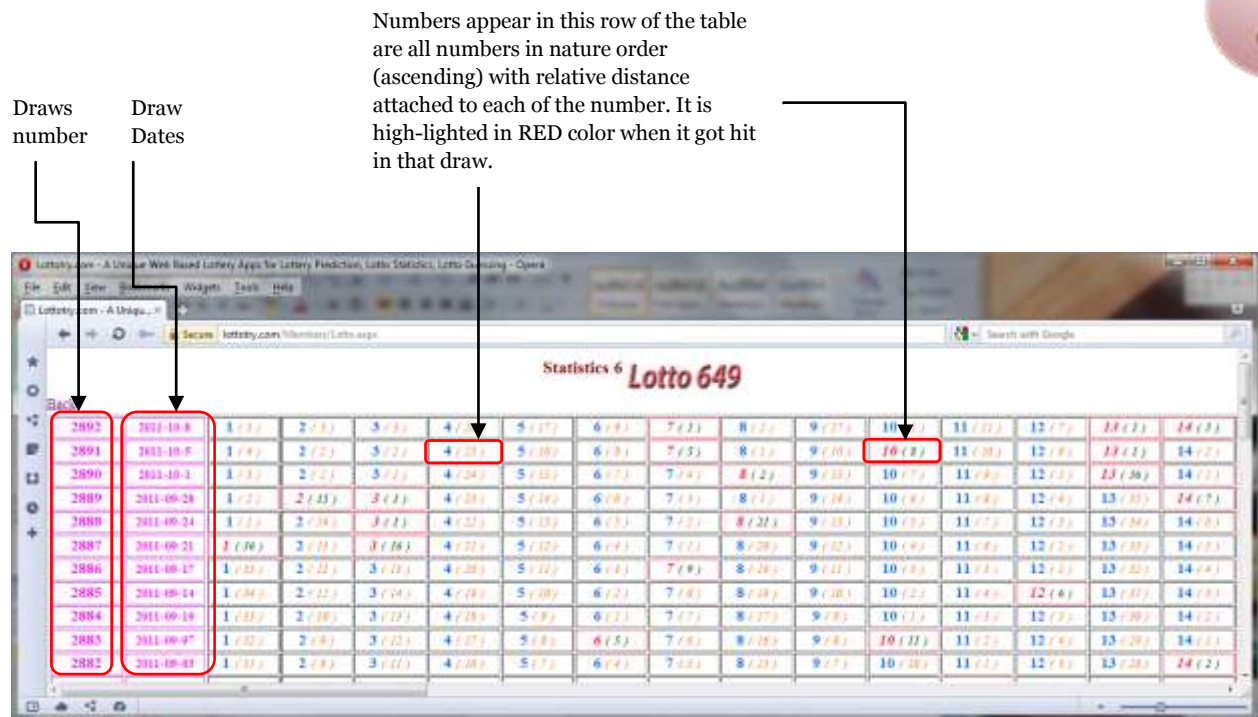

Currently selected Tab  
**Statistics 6**

Figure 1 User Input Panel

Two selections for the Ranges: **Past Draws** and **All Numbers**. Past Draws will only display hit numbers in each past draws and the range past draws is defined in Start Draw and Target Draw fields. All Numbers will display all 49 (or 56, 59, etc.) numbers in a nature number order but attached distance to each and high-lighted those got hit on each draws

Select a lotto of your interest. Refer to Figure 1 in **Predict Draws** for the details of what lotteries are available.

Click **Submit** button to display **Statistics 6** as shown in Figures followed. No matter how many you may click the **Submit** button, the statistics will remain unchanged as long as input values remain unchanged.

A screenshot of a web browser displaying a grid of lottery numbers. The browser's address bar shows 'localhost/Members/Lotto.aspx'. The grid consists of 10 rows and 16 columns. Each cell contains a number followed by a count in parentheses. The numbers range from 30 to 45. The counts vary, with some numbers appearing more frequently than others. For example, in the first row, 30 appears 11 times, 31 appears 10 times, and so on.

30 (11)	31 (10)	32 (13)	33 (12)	34 (11)	35 (9)	36 (2)	37 (11)	38 (9)	39 (1)	40 (10)	41 (19)	42 (1)	43 (7)	44 (1)	45 (1)
